About Us - Global Supply and Operations

Juco Jute is a **Turkish brand** committed to providing **sustainable** and **eco-friendly jute packaging solutions** with a strong focus on quality. We offer jute sack solutions primarily for agricultural products such as hazelnuts, olives, cotton, and grains.

By collaborating with the most reliable manufacturers in Bangladesh and India, **Juco Jute** imports directly to the **Turkish market** and **exports globally**. **Juco** operates with trusted production partners in Bangladesh and India while **managing international trade operations from Türkiye**.

Our global supply chain integrates production facilities in Bangladesh and India, combined with export and commercial operations based in Türkiye.

Our vision is to combine traditional jute products with modern logistics and environmentally conscious design, offering sustainable solutions both in **Türkiye** and **across the globe**.

Why Juco Jute?

Direct Import from Bangladesh & India

We work directly with certified, high-quality mills.

Consistent Quality & Competitive Pricing

We balance cost efficiency with reliability and durability.

Food-Grade Certified Products

Hydrocarbon-free, compliant with international food safety standards.

Custom Solutions for Agriculture

Tailored sizes, weights, and weaves for your exact needs.

Eco-Friendly & Biodegradable

All our jute products are natural, reusable, and sustainable.

Trusted by Leading Producers Across Türkiye

Our clients include hazelnut, pulses, grain, coffee and cacao exporters.

Fields of Use

- Hazelnut, nuts, wheat, almonds, rice, cereals, seeds, walnut, potatoes and olive
- Grain, pulses storage and logistics
- Cocoa beans, coffee beans
- Flood control (sandbags)
- Industrial packaging
- Erosion control and landscaping (Geo Jute)

Sustainability Commitment

At Juco Jute, we believe that sustainability is not a trend but a responsibility. Each bag we offer supports a cleaner planet and a greener harvest. By choosing Juco Jute, you contribute to a circular economy and agricultural resilience.

Certifications & Quality Assurance

Our jute products are sourced from manufacturers certified under the **ISO 9001:2015** Quality Management System and accredited by internationally recognized bodies such as **IAS** and **IAF**. These certifications guarantee consistent quality, full traceability, and sustainable production practices.

All our jute products comply with international food-contact safety regulations and are produced in certified facilities, including those **inspected by SGS**. We maintain strict quality control, including batch-level monitoring and end-to-end traceability from production to final delivery.

JUTE SACKING BAG

JUTE SACK

“Looking for durable and eco-friendly jute sack solutions tailored for the agricultural industry? Get in touch with us today.”

Our Jute Sacking bags are designed to be both durable and eco-friendly, making them suitable for agricultural storage as well as a number of industrial applications.

Made from premium natural jute fiber, these bags provide excellent strength and breathability for the transportation of bulk commodities like:

Grains

Seeds

Pulses

Rice

Nuts

Hazelnut

Coffee Beans

Cocoa Beans

Production Process

Standard Jute Sack – Our products are crafted with precision by skilled hands.

These bags are not only robust and reliable, but also:

Fully biodegradable

Eco-friendly

Sustainable

Reusable

They provide an environmentally responsible alternative to synthetic materials.

Whether you're using them for traditional agriculture or sustainable packaging, Jute Sacking bags are made just for your needs—and for a greener future.

Explore our range to find the perfect size and specification for your requirements.

All jute sacks are made from locally woven jute fiber and customized to meet the size and weight requirements of each client, especially to satisfy the growing demand in the farming and agricultural sectors.

Export-ready jute bales, photographed during an actual customer delivery. At Juco, what you see is what you get—real products, real commitment.

From our hands to yours. Delivered with care.

Primary Groups of Use:

- A-Twill: For Sugar, Spices Packing
- B-Twill: For Food Grains Packing
- Heavy Ceers: For Leaves, Spices Packing
- DW Flour Bags: For Flour, Maize Packing

Food Grade Jute Bags:

Our Food Grade Jute Bags are free of hydrocarbons and meet global food safety standards.

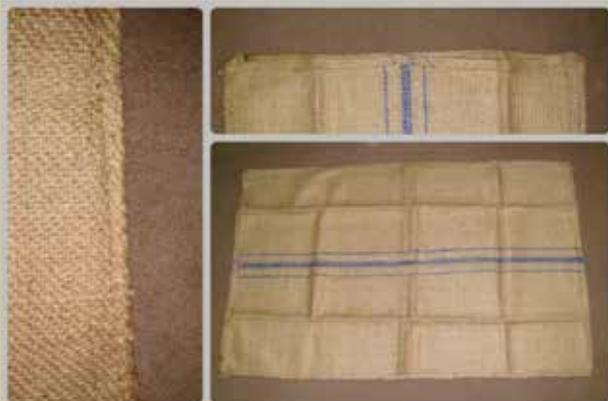

Instead of mineral-based oil, we use vegetable-based oil in the production process. These bags can be customized according to the buyer's specifications.
